The annual meeting of the trustees of the Public Library was held at the library Thursday afternoon at 4:30. The vacancies existing from the removal of Rev. Mr. Vager and Mrs. E. C. McClintock were filled by the election of Rev. Jos. Osgood and Capt. J. Warren Bates. Rev. Joseph Osgood was chosen president, E. P. Collier, secretary and J. Warren Bates, treasurer. At a meeting soon to be held, a number of new books will be added to the library.

The entertainment given by the Star Minstrels of Weymouth at the Town Hall Thursday night was a complete surprise to anyone who expected anything cheap or poor. We can safely say that it was the best entertainment of its kind given at Cohasset this winter. The programme contained nothing old or coarse, the jokes were fresh and crisp, the end men original, and the ballad singers in excellent voice. Denny Haley is a host in himself, and was an acquisition to any minstrel organization. T. E. Ahern was equally good as a "gemmer of color" or a representative of Erin. G. L. Shaw was much for his banjo and xylophone solos, as did also Mr. William Kennedy in club swinging. Mr. W. F. Thompson filled the bill of intellectual acceptability. Mr. W. F. Burrell as pianist and accompanist added much to the enjoyment of the evening. The company responded generously to entores which were frequently called for. The entertainment concluded with the laughable sketch, "Wanted, a Stock Company," in which Mr. Ahern carried off the honors. The audience was not so large as so excellent a representation called for, but certainly the company will have no difficulty on this score on its next appearance in Cohasset.

Pleasant weather this. Surveyor Bates has put a covering of gravel on the sidewalk from the corner of No. Main street and depot avenue to the house of A. H. Tower. This is a much needed improvement. For many years our citizens have stumbled over the stones on this particular sidewalk, and if imprecations had any effect the stones would have been removed long ago.

The noon train on Saturday reached Cohasset three quarters of an hour late owing to a break down at South Boston. The express train from Plymouth was half an hour behind time Monday morning.

Mr. Herbert A. Tilden arrived home from the West, Wednesday. Sailed April 10th, 5th. Morning Star, Capt. Manuel F. Antoine; 1st, sch. Charlotte, Capt. Manuel P. Valine; 2d, schooner Wide Awake, Capt. Manuel S. Enos, schooner Fannie L. Nye, Capt. Jos. L. Enos.

The steamboats began daily trips between Boston and Hull on Monday connecting with trains for points along the beach. C. F. B. Tilden's coaches meet the trains, and Ca. Stoddard's diminutive form is once more seen on our streets.

Sailed from Calcutta, April 8th, ship Pharo, Capt. James Collier. Mr. Nicholas Sheldon of Providence who has made Cohasset his summer home for the past two seasons, has engaged Mr. A. H. Tower's house on Beach street for this summer.

The improvement of Steep Rock hill will probably require about two more weeks work. The hill has been cut down on its inner side and will be fit for travelling while the outer side is being cut down. Mr. Bates kills two birds with one stone by using the stones obtained from the ledge for widening the road at the foot of the hill.

The pipes of the Hingham Water Co. are being laid along Jerusalem Road below the front point. The workmen find it pretty tough cutting.

The Boston Journal has it that the residence of Mr. Edward D. Peters has been let to Mr. Kara Baker, and that the Jetter mansion has been leased by Mr. Sumner R. Mead and the Potter Cottage by Mr. J. W. Magruder.

Mr. V. Marcy Markos, left Scituate Tuesday, for Provincetown where he has charge of the government work. He was to have met the government boat Mystic, but owing to the fog, he failed to come, so he went by rail.

The smoke that was seen so plainly Wednesday afternoon was wood land in Marshfield. Mr. Edgar Tilden had been burning over a piece of land containing a good deal of underbrush, lost control of the fire and it spread rapidly.

GREENBUSH.
Mr. John Ford has sold a sail boat to parties near Hotel Hunker.
Mr. A. M. Clements of Boston who purchased Eaton's Hotel about a year ago, is putting the same in repair for the coming summer. The house is to be lighted by gas and heated by steam. We are glad to announce that the house is to be opened again to the public and hope Mr. C. will have a successful season.
NORTH SCITUATE.
Notice the different advertisements of H. A. Seaverns & Co. in this issue.
Mr. H. A. Seaverns returned from Florida last Thursday very much improved in health.
Mr. G. F. J. Bryant, the well known architect of Boston, arrived in town last Friday, and has taken up his summer residence here.
We understand that steps are being taken by a number of the young people of this village to give a dramatic entertainment soon.
A large number of new houses are, being built at the beach this spring, and the prospects are that the coming season will be a very busy one.
Rev. T. C. Tingley, pastor of the Baptist church in Raynham, died suddenly, Monday, April 2, aged 79 years. Mr. Tingley received a call from the First Baptist Church, Scituate, April 1, 1879, and remained with them until 1884. During his pastorate twenty-two were added by baptism and twenty by letter, making thirty-one in all. He was a man of sterling character and eminently pious and was greatly beloved by the church and respected by all. He fell with the harness on in the midst of considerable religious feeling.
Miss Carr, who has successfully taught the Grove street school for a number of terms, has accepted a school in an adjoining town at a higher salary, and Miss Seaverns, the present teacher of the Centre school, will take her place. The Centre school will be taught by Miss Baker of Marshfield who has had several years' experience and is a competent teacher.

THE POTATO CHOP.
Almost every farmer now uses Phosphate in the hill or scattered along the drill for this crop, even when he has plenty of other manure. A small quantity (from two hundred to four hundred per acre, according to condition of soil and thickness of planting) of a good Phosphate will pay a large profit in increased yield, and the potatoes will be much smoother and more neatly, and much less liable to rot than when no Phosphate is used. Write as follows on this subject:—
"Having used Bradley's Phosphate for the past five years in growing potatoes, with such marvellous good results, I should like to say that I have never failed of a large crop of splendid potatoes. I have tried almost every year, one, and sometimes three, other kinds of fertilizers, but invariably with unsatisfactory results, such as small potatoes often not worth digging, and always of poor quality."

JARRIED.
In Marshfield, April 14, by Rev. E. Alden, Mr. George A. Bennett of South Scituate, to Miss Sarah E. Perry of Marshfield.
DIED.
